IRINE JELAGAT ROTICH

BRIEF PROFILE

An analytical thinker with the ability to scalp brilliant strategies from a massive project, a software developer with vast experience in the following technologies (Microsoft Dynamics Navision 2013-Dynamics 365-Business Central, Java Spring MVC framework, Angular Js, PHP laravel MVC).

PROFESSIONAL EXPERIENCE

ICT Supervisor, Kenya National Bureau of Statistics

August 2019 -to- September 2nd 2019

Training Content Supervisors and ensuring that they train Enumerators adequately. Providing technical support on ICT issues to Content Supervisors and Enumerators in their area of supervision. Working with the Content Supervisors to ensure that the census enumeration starts at the agreed time in the assigned supervision areas.

.NET Dynamics Systems Engineer, Softtec Innovation Africa

May 2018 -to- Date

I engineered the development and deployment of the integrated hospital management system, Sacco system and Insurance systems from requirements definition to integration and user training. I developed strategies for third party apps integration (Smart Link Insurance) to the systems, Hardware integrations (Urine analysis machines), Restful and soap apis for mobile and web applications.

Software Developer, Agile Business Solutions Limited

Jan 2017 -to- May 2017

I led a team from the initial stages of requirements definition, design, development, testing and deployment of new pension scheme using Microsoft Dynamics NAV; I carried out user support trainings to help them understand various dashboards and helped them generate necessary reports. I was also involved in the development of Android Clients applications while expanding on the core functionality of the system.

Junior Software Developer, Coretec Systems and Solutions Limited

Aug 2017-to-Dec 2017

I worked in a team as a Junior developer (Microsoft Dynamics Nav) from the initial stages of requirements definition to design, development and delivery of new software. I carried out technical user training as required to enable users interpret reports as well as deal with data, dashboards and report queries from users and resolve or advise them accordingly.

Web Apps Developer, TraceCore Africa Limited

March 2016-to-December 2017

I took part in the development of web and mobile applications, I participated in the development of websites www.aicmar.or.ke (Custom themes-Parent and child theme, customizing plugins), web applications using laravel framework, REST APIs integration and testing, user support and trainings to bring them on board with developed systems

Sales and Marketing Officer, Maisha Bora Limited

May 2015 -to- September 2015

As a marketing specialist, I demonstrated success in growing Maisha Bora brand and expanding new revenue streams in Eldoret by influencing, public speaking and collaborating with strategic partners in driving product sales. Did direct sales through targeted emails, sms and meet the customer initiatives.

Compiled daily, weekly and monthly sales reports, scalped impressive patterns that were used for decision making.

SKILLS

.NET Microsoft Dynamics Nav (2013-Dynamics 365 Business Central), ASP.Net.

SQL database.

Java Spring MVC framework.

Angular JavaScript, Vue JS.

Linux server administration and programming.

Windows server administration.
